PROFESSIONAL EXPERIENCE

Full Stack Developer (.NET) – Contract   Jan 2019 to Mar 2020

ImprovTek Consulting Inc., Mississauga

- Designed, developed, and maintained ecommerce application using .NET framework tools (Server-side code using C# and ASP.NET MVC, Web API) and (Client side code using JavaScript, HTML, and CSS)
- Used windows services and ADO.NET, EF (.NET Core) for data persistence and retrieval.

- Maintained and ran unit tests for both new and existing code, with a goal of delivering defect-free and well-tested code to QA.
- Translated mockups and wireframes into functioning front-end code.
- Wrote and maintained documentation for new and existing features.
- Used version control with Git
- Prepared reports on programming project specifications, activities, or status.
- Adopted continuous integration and other approaches to facilitate the delivery of new features, using DevOps principles

.NET Developer/Analyst – Contract   Apr 2018 to Nov 2018

Jago Solutions Int'l Inc., Toronto

- Developed C#, MySQL Web applications with a mix of GUI and server-side development
- Maintained, debugged and troubleshoot existing C#/ASP.NET applications
- Reviewed software requirements to give development estimates and product feedback
- Worked with technical staff to understand and analyze complex software problems and specify processes to resolve them
- Database scripting using MS SQL Server
- Consulted with client on infrastructure recommendations, issue remediation, and risk mitigation

Solution Developer – Full Time   May 2005 to Apr 2018

Megahit Systems, Nigeria

- Defined, documented and developed multi-tenant software using VB.NET, C#, ASP.NET, SQL SERVER. Contributed to architecture and technical design discussions, code reviews and technical design/specifications in collaboration with the project team
- Designed and developed software applications according to specifications and the standard enterprise architecture.
- Contributed to the review and analysis of business requirements
- Created thorough, professional quality project documentation and technical specifications
- Provided reasonable work estimates and communicates deviations from estimates or work product in advance of deadline
- Evaluated software change requests, determined business need or conducts root cause analysis, and implements technically efficient solutions
- Assessed the impact of software changes and new development on other systems; conducts integration tests to mitigate risks

CERTIFICATIONS AND TRAINIING

- C# (.NET Framework)
- Front End Development Program
- Java Script
- SQL Fundamental

EDUCATION

- Humber College - Advance .NET Programming (2020)
- Topron Consulting Inc. – Business Systems Analysis (2019)
- National Open University - MSc. Information Technology (2018 - In progress)
- Federal University of Technology, Minna - PGD. Computer Science (2006)
- The Polytechnic, Ibadan - HND. Computer Science (2000)
